📇 PROFESSIONAL SUMMARY

Currently a student at California State University, San Marcos pursuing a Bachelor's of Science in Computer Science. I am actively seeking an internship in software or app development to apply and expand my programming skills. While furthering my knowledge, I leverage my technological expertise, diligent work ethic, and adept managerial abilities to ensure seamless functioning of all operations at Apple Carlsbad.

💼 PROFESSIONAL EXPERIENCE

Apple Inc., *Operations Specialist*   Oct 2022 – present | Carlsbad, CA
-Manage receiving, counting, returning, and handling of all inventory while keeping team informed about task progress and staying up-to-date with process changes. Also, maintain Apple's visual standards, address inventory reporting questions, follow health and safety regulations, and handle paperwork and other various tasks as directed by leadership team.

The Home Depot, *Sales Associate*   2018 – 2022 | Vista, CA
-Provided phenomenal customer service and displayed a wide variety of skills such as strong leadership and problem-solving. Time management, communication, and teamwork were all essential in order to benefit the company, as well as most importantly, the customer.

🎓 EDUCATION

California State University, San Marcos, *Bachelor's Degree - Computer Science*   Aug 2024 – May 2026 | San Marcos, CA
-Pursuing a Bachelor of Science in Computer Science at California State University, San Marcos. Throughout my coursework, I have engaged in a wide range of subjects, including Programming I and II, Assembly Language/Computer Architecture, Data Structures, and Wireless Networking. These courses have equipped me with a robust understanding of software development, computer systems, and network communication, preparing me for advanced challenges in the field of computer science.

Palomar College, *Associate's Degree - Math and Science*   2022 | San Marcos, CA
-Earned an Associate's Degree in Math and Science where I completed a comprehensive range of courses in mathematics, anatomy, and biology. These courses deepened my analytical thinking and problem-solving abilities but also provided a strong foundation in the scientific principles that underpin my studies in computer science.

🧠 SOFT SKILLS

| Problem-Solving | Communication | Adaptability | Teamwork | Goal-Oriented | Enthusiastic |

{} PROJECTS AND PROFICIENCIES

Motion of the Day — Coded an iOS app using Swift. Was able to experience everything involved from start to finish app development and deployment process, including planning stage, designing stage, testing, and debugging.

gabrielsaucedo.codes — Created, from scratch, a portfolio website to showcase my skills, education, and projects throughout my career using HTML/CSS and JavaScript.
